Divestment of Montara Oil Field

Reposition non-core

Transaction: In July 2018, PTTEP signed SPA to divest 100% stake in Montara field to Jadestone Energy (Eagle) Pty Ltd

Rationale: Be a non-operating position in non-core area and reduce exposure on mature and high cost operating assets

Impact to FY2018's performance

After 22.22% stake acquisition of Bongkot and the divestment of Montara field

Sales volume:

* Taken into account the additional Bongkot's sale contribution from late June 2018 (daily sales volume of 35 KBOED) offset with Montara divestment

Unit Cost:

- Continue to maintain overall unit cost in range between 30-31 \$/BOE

Financial Position:

- Immediate cash flow contribution from additional stake in Bongkot
- Enhance overall profitability

Global LNG Market Update

In need of new LNG supply from 2022/2023 onwards

Global LNG Market

LNG demand shows continuous growth, and market will likely rebalance over the next 3 years

New LNG projects are needed on-stream as a demand gap emerges in 2022. Thus, there is momentum behind investment decision of pre-FID projects over the next 18 months

“Risks of a global LNG oversupply continue to reduce but price recovery might be dented by the amount of new FIDs”

LNG supply growth areas

Pre-FID LNG capacity adds are expected, and with current strong fundamental, players speed-up to take FID

LNG demand growth outlook (2017-2035)

Key drivers of Asian LNG demand growth include pro-gas energy policies and emerging market growth accelerating
